## **General Comment**

Come on! I am so very tired of Big Brother trying to tell me what to do. Things are just fine the way they are. Don't try to fix something that isn't broken. Selling call options on stocks is just another way to increase income in any account, an IRA account included. You probably don't like the tone of my comments, thinking the government "knows best." Well, in this case it doesn't.

I have studied how to trade options carefully, have done it for years, and have increased the value of my IRA accounts, thereby. I actually don't use it very often, but when something arises that can benefit me, I will.

Please don't impose more regulations on us.
